

Dear Dietitian,

Our names are Taylor King and Emma Minden and we are currently pursuing a Master's of Applied Nutrition at the University of Guelph. As part of our research project with Dr. Laura Forbes we are conducting a survey for Canadian dietitians about their feelings towards and involvement with research, as well as their perceived barriers and facilitators to conducting practice-based research. This survey will take approximately 12 minutes to complete.

It would be greatly appreciated if you could complete the survey linked below, and kindly forward this email to any fellow dietitian colleagues that would be willing to participate.

If you have any questions or would like to hear more information about the study, please do not hesitate to contact either one of us.

This project has been reviewed by the Research Ethics Board for compliance with federal guidelines for research involving human participants. If you have questions regarding your rights and welfare as a research participant in this study (REB# 18-03-009), please contact: Director, Research Ethics; University of Guelph; reb@uoguelph.ca; (519) 824-4120 (ext. 56606).

Thank you in advance for your participation.

Please email us if you would like the results sent to you upon completion of the study.

Taylor King (tking01@uoguelph.ca) and Emma Minden (eminden@uoguelph.ca)
