Learning Plan Audit Configuration

This quote is for configuration of the Alinity audit components for Learning Plans. Several components must be configured for NBAD's requirements to support the audit work flow. For a detailed overview of the workflow supported for auditing learning plans, see the video series at this link:

https://www.youtube.com/watch?v=zNyltXh2Mfc&list=PL0SRwm8xK_H03NIAKaJb-UfNLCeBzbVTd

Description	Quantity	Unit Price	Tax	Amount CAD
<p>The first component to be configured is the query to use for randomly selecting members for audit. Some members will be ineligible (e.g. new grads, members audited in the previous X years, etc.) and the query must reflect these rules.</p> <p>An email template must be setup for advising members of the pending audit and to provide instructions as to how they can respond online. Additional templates are typically required to send reminders to individuals who are late/slow responding to the audit request.</p> <p>A member-audit-response-form must be configured which incorporates NBAD's requirements including fields for uploading supporting documents. This is the main activity in audit configuration.</p> <p>Configuration of the audit-committee members is next along with a form that committee members fill out in making recommendations to approve or reject audit responses.</p> <p>Training for Nicole in using the Audit features is included in this quotation.</p>	48.00	115.00	5%	5,520.00
Support for Nicole to add French-language versions/terms for member and committee forms and changes to other user interface components to support language preference of the signed in user.	4.00	100.00	5%	400.00

Subtotal	5,920.00
TOTAL GST COLLECTED 5%	296.00

Terms

We propose undertaking the scope of work as described on a FIXED PRICE contract basis. The total will be billed upon deployment to the production environment or 30 days after all reported deficiencies are corrected if approval for production deployment is delayed.

This proposal, pricing, and any implied offers it contains expire 30 days after the issue date. To initiate the project, acceptance of the quote through the online system (see email) is required.

WARRANTY

Softworks agrees to provide a bug fix warranty for 1 year from the date of production deployment for all customizations. A lifetime bug fix warranty is provided for any defect found in standard product modules where a valid maintenance and support agreement is in effect. Defects are corrected by Softworks during the warranty period without charge.
